**DETAILED ACTION**

Claims 1-6 and 10-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The applicant's claims include a conditions-designating processing unit. The examiner finds this unit and its functions to be vague and infinite. While the features of the unit have been well presented in the remarks of the applicant. It continues to be unclear of all these features are essential to the conditioning designating unit claimed. The applicant is encouraged to contact the examiner.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-6 and 10-19 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a manufacturing/cost/legal conditions processing unit, it does not reasonably provide enablement for conditions outside of the manufacturing arena, (e.g., (the claims can read in a server for picking the color of furniture, for a car, etc. which include conditions outside the scope of the present invention. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims. The applicants arguments have been considered but are not persuasive.

Claims would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
